wells in villages that have no wells & should send up a definite programme of well works from year to year, to the Dy Com by the end of January every year. The Dy Com.r should consolidate the requirements of the several Talukas & send up to Govt before February the demand for the whole District & Govt will provide the amount required for the Dist on the basis of this list. The amount so sanctioned by Govt for the Dist will then be distributed by the Dy Com.r after ascertaining the needs of each village. It was subsequently noticed that the grants made by Govt. for wells in villages were not sufficient to meet the programme as framed & Govt in their order No.K. 8923-40 VP(0-27-49 dt 21.6.28 directed that the grants may be supplemented by grants from Dist Boards out of the balance under "Drinking water wells. Famine", the Dist Boards thereby taking over such works & left to

Even after all these instructions it was found that the current years grant has been completely exhausted & insufficient to the demands & Govt have recently directed vide G.O No 4790-800 VP (10-27)-28 Dated 1.12.28. that a programme for the next three years should be prepared showing what works to be taken up each year out of the grants made by Govt, the Dist Board & private persons, taken care that incomplete works are first completed & the cost of the new work proposed for the year do not exceed the amount available for the year.

items pertaining to Rural Reconstruction. In the case of the grant for Drinking Water wells, The Dist Boards are expected to supplement the grant & Govt have already called for a three year programme taking into account the contribution from D.B.'s & private persons also. & it may not perhaps be desirable to authorise the Revenue to distribute the grant. The Case of Sanitary will be kept in view in giving grants under Sanitary Grants from next year
